

Alex Edwards

Full Stack Web Developer | Front End Software Engineer

Toledo, OH | 419-707-1296 | alexscodespace@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

TECHNICAL SKILLS

Frontend: React.js, JavaScript, Context API, Material-UI, Whimsical, Redux, HTML, CSS, Styled-Components, Tailwind, React-Spring

Backend: Node.js, Commerce.js, Stripe API, MongoDB, REST APIs, JSON Tokens, Postman, PostgreSQL, Python, Heroku, Docker

PROJECTS

CoderHeroes, Backend Engineer

Oct 2021 - Nov 2021

Coderheroes is a program where a child can experience the full process of building a fully functional web app

[GitHub](#)

- Developed the backend for CoderHeroes with Node, Express, PostgreSQL, and Docker
- Reviewed code, and managed 20+ pull requests with other team members
- Configured unit tests with Jest to verify that individual, isolated parts of the code worked as expected

KeekCreator, Full Stack Developer

June 2021-Present

A website that sells art created by the members of the studio, guests can sign up for said memberships through the site

[GitHub](#)

- A full-stack e-commerce site that brings in creators to help them get the exposure they need through their online shop or to buy a membership which allows them access to the art studio
- I manage the codebase built with over 15 components, 100+ commits and a backend that was developed to make calls, handle password hashing and json web tokens for the user auth.
- Tech stack: React, Context API, Tailwind CSS, Commerce.js, Stripe API, Node, JSON Tokens, REST API, and MongoDB Atlas

ConsolesAPI, Full Stack Developer

[GitHub](#)

- A deployed API that used web scraping to grab articles about the Xbox, PlayStation, or Nintendo consoles
- Cheerio is a library that I utilized to help me achieve this. I scraped 4 sites for the API, which when called will return a JSON object with over 1000 articles including the url, the site name and the header of the scraped article.

EXPERIENCE

FedEx, Perrysburg, OH - Package Handler

Sep 2020 - Jan 2021

- Consistently averaged 1400 packages per shift loaded onto delivery vehicles, exceeding expectations by 71%
- Remained up to date with FedEx training, including best practices for safety and warehouse operational procedures
- Served as a champion for FedEx package handling procedures, holding team members accountable for surpassing handling metrics given by leadership

Meijer, Oregon, OH - Stocker

Dec 2019 - Jun 2020

- Utilized best practices for zoning and store presentation to ensure proper stocking of all products prior to store's opening
- Achieved forklift certification by completing 10 hours of onsite training with leadership team
- Notified leadership team of low inventory products in an effort to expedite delivery and provide proper corresponding pricing

EDUCATION

Lambda School, Full Stack Web Development

May 2021 - Nov 2021
